

U.C. Berkeley  
Chickering American River Reserve

## **Plant List**

**List:** UC NRS Reserve. Compiled by Mark Stromberg from notes provided 10/28/02 by Alan Fish, 2730 Buena Vista Way, Berkeley, CA. 510 848 6927.

**Sources:**

- Chickering, S. 1987. Index to Chickering Family Herbarium, Chickering Reserve. *in*, Berkeley, California.
- Howell, J. T. 1943. An Enumeration of Norden Plants. Sierra Club Nature Notes **12**:35.

For each species listed below, several color photos, stored as prints, as well as a sample of the plant in flower are pressed on cardboard pages with a clear plastic sheet, and adhesive covering on each cardboard. With each is a short annotation by Sherman Chickering recording locations of the plants using the Chickering family colloquial geographic terms. Plants were collected from 1950-1988. A longer list that references this is published: Palmer, R., B. L. Corbin, R. Woodward, and M. Barbour. 1983. Floristic checklist for the headwaters basin area of the North Fork of the American River, Placer County, California. Madrono 30(4):52-66.
